Marcus,

Information as you had requested earlier today.

Thanks

Terry

Good morning Mr. Schuman:

Records indicate this plat was already signed prior to the Public Plans being approved. Were Public Plan comments ever sent to you? A point-by-point response to the most recent memo sent out should be provided with this public plan submittal. Also, a paper courtesy copy of the Public Plans should be provided prior to the submittal of the mylars or with the mylars to ensure the plans are ready to be signed. The draft plat should have been provided with the public plan submittal and the public plans are now required to be approved prior to the final plan being approved.

Marcus Gaskins  
Engineer III

Marcus,

Thank you for the clarification. For your information we did submit paper copies back on 1-10-17 per attached transmittal as well as a point by point response letter (copy attached) to all of the subdivision comments we had received to date. This was the basis for why the plat was recorded per my understanding. If you are now looking at the mylars and want to add comments that we had never seen before please send them to me and I can review and address if needed.

Terry
